A warrant was issued against Wm. Glachet, for rolling a wheelbarrow on the side walks. above were in the Mayor's court. In Justice May's Court, Georgeanna Day and Kate Martin, both colored, were bound over to keep the peace, and Peter Davis was committed to jail to await the result of the injuries inflicted by him upon Ferdinand Davis, his brother. Albert Cozzens, colored, committed to jail for robbing the house of Gaton Arington was brought before Justice Beach and recommitted committed to the work house for vagrancy and for assisting William Phillips to escape, has been released upon the payment of his fine.

NEW WHEAT-ITS CONDITION. -The following timely remarks of the Petersburg Index are equally applicable to this section:-New wheat is beginning to come into the city freely and much of it wet. Now one thing every farmer knows is this, that wet wheat won't keep, and when bulked for any length of time in that condition, will be totally ruined. Of course, when wheat comes here too damp, no miller will give its full value, for it is a source of continual anmoyance and risk to him, and he must be paid for taking the chances of loss. It is easy for the tarmer to have his wheat dry before shipment, and then there is no danger of loss either in truce, or the wheat. We hope our country friends will keep this matter before them, and ship no more wet wheat to market.

Corporation Court-Judge E. M. Lowe presiding.-Commonwealth vs. Frederick Corbin; on indicament for petit lareeny; jury appeared in court with a verdict of not quilty, overseers of Poor vs. Wm. Hamilton; bas-

tardy; continued for defendant. Com. vs. Alfred Contee; indictment for malicious wounding. The prisoner was arraigned and pleaded in abatement, to which plea the Commonwealth demurred, and upon the sustaining of the demurrer to the plea, the defendant demurred to the indictment, which was

overruled. Overseers of Poor vs. Moses Stephens; bastarday; case in progress.

ASSAULT BY A BROTHER. - A young man named Ferdinaud Davis, was assaulted yesterday afternoon in the wheelwright shop of Mr. Ford, in which both were employed, in the western end of the city, and badly hurt. His infuriated brother struck him first with a sledge hammer and then with a bar of iron, cutting his head badly, and would have continued the attack had he not been prevented by the inter-position of Mr. Ford. The assailant was ar-rested and committed by Justice May to await the result of his brother's injuries which are reported to be of a severe character.

With a view to the fall trade, we respectfully announce that these Mills are now completed, and that we will take pleasure in showing samples of all our goods (now manufacturing) to dealers or others intered. We manufacture PEARL HOMINY, GRITS AND SAMP. AND

PEARL FLOUR AND MEAL. The offal from these various articles combined makes a very valuable article of food for horses and cows, to which the attention of those inter-

ested is invited. We claim superiority for the Hominy made upon our Patent Mills for the following reasons:

First. It is made from day corn without having to go through the soaking process necessary in the old way of making hominy, for the pur-pose of removing the husks, which causes it to begin to spoil from the moment it is thus made. Whereas our process puts it in a drier condition

than corn ever is naturally.

Secondly. The same bulk of our Hominy will produce fity per cent more of the cooked article than by the wet process, as ours swells while cooking, while the other swells while soaking, before being cooked.
Thirdly. It takes half the time to cook

Fourthly. It can be shipped with safety from spoiling to any climate, making a cheap substi-tute for rice and beans. The above also applies to our Pearl Grits. The best proof of the superiority of Hominy and Grus made upon our Patent Mills is that they have been adopted by the Army and Navy of the United States, and approved by all
